

JHONDEL D. CARANAY

Full-Stack Web Developer

0995 460 9540 • jhondelconacaranay@gmail.com • jhondel-portfolio.vercel.app • github.com/JhondelCaranay

SUMMARY

Full-Stack Web Developer with 2 years of combined professional and freelance experience building and maintaining business web applications, including HR, warehouse inventory, construction project management with payroll, pharmacy, and student services systems. Works across the stack with React, Next.js, Node.js/Express, NestJS, Laravel, and PHP, and has hands-on experience migrating a legacy VB.NET system to a modern React and Express architecture. Focused on writing maintainable code and delivering stable, user-friendly applications.

TECHNICAL SKILLS

Frontend: React, Next.js, Redux, React Query, Tailwind CSS, shadcn/ui, Ant Design, Bootstrap

Backend: Node.js, Express.js, NestJS, PHP, Laravel, Socket.IO, Prisma, Drizzle ORM

Databases: PostgreSQL, MySQL, Microsoft SQL Server, MongoDB

DevOps & Tools: Git, GitHub Actions, Docker, Nginx, AWS (S3, EC2), Vercel, Cloudinary, WordPress

WORK EXPERIENCE

Junior Web Developer | Blue Wolf Solution Jan 2025 – Aug 2025

- Designed and built a custom construction project management system with integrated payroll from the ground up using Laravel and React.
- Maintained and improved a PHP-based pharmacy management system, diagnosing and fixing bugs to keep the system stable.
- Developed and maintained client WordPress websites, handling content management, blog updates, site enhancements, and ongoing maintenance.

Tech: Laravel, React, PHP, MySQL, Tailwind CSS, WordPress

Junior Programmer | Lloyds Laboratories, Inc. Feb 2024 – Sep 2024

- Primarily responsible for migrating modules and features of an enterprise HR system from a legacy VB.NET application to a React and Express.js architecture, preserving compatibility, performance, and stability.
- Maintained and continuously enhanced the HR system throughout the migration, keeping it reliable for day-to-day operations.
- Collaborated with the development team to implement, test, and maintain new application features.

Tech: React, Redux, Express.js, Socket.IO, Microsoft SQL Server, Ant Design

Web Developer Intern (OJT) | SPEDI Construction, Inc. Oct 2022 – Jan 2023

- Implemented new features, resolved issues, and improved the overall functionality of an existing warehouse inventory management system.
- Built responsive, maintainable interface components within the existing codebase.

Tech: Laravel, React, Redux, MySQL, React Bootstrap

FREELANCE PROJECTS

Bulsujuans | Student Complaint Management System Dec 2025 – Feb 2026

- Developed a platform where students submit complaints that are automatically converted into tickets and routed to the appropriate office based on complaint type.
- Deployed with Docker and a CI/CD pipeline.

Tech: Next.js, Express.js, Prisma, PostgreSQL, Docker, CI/CD

Citizen | Alumni Management System, Bulacan State University Jan 2024 – Mar 2024

- Developed a web platform that helps alumni build a community, apply for jobs, and manage alumni records and status tracking.

Tech: Next.js, MySQL, Prisma

Pet Adoption Management System | Backend Developer Oct 2022 – Dec 2022

- Built the backend for a pet adoption platform covering user registration, pet listings, adoption applications, and interview scheduling.

Tech: NestJS, Prisma

EDUCATION

BS Information Systems, Major in Web Development | Bulacan Polytechnic College 2019 – 2023

Junior & Senior High School | Calumpit Calumpang National High School 2011 – 2017
